Dave, Yes, that's no problem. I'll do the clips and send them to you for review when I'm done.

Just briefly:

News clips: Compiled clips, since Alita is busy with FOIA through Weds.

9Online feature story on Environmentally Preferable Purchasing policy: Proofed and edited text; sent photos, captions, and text to David Schwenk for layout as a mockup page.

Communicator message on mine spill on Animas River: Bill Keener has asked me to work with him and Soledad and Brent Maier on a communicator message on the mine spill that we would send to R9 staff and managers on Thursday. I'll be working on this Weds in addition to the clips, unless Kristen can do the initial clips compilation on Weds.

Kristen, can you?

Thanks!

Dave
